Certification of CPNI Filing

12/31//2007

EB Docket No. 06-36

EB-06-TC-060

I, Donald R Santhuff , hereby certify for calender year 2007 that I am an officer of Steelville Telephone Exchange and that I have personal knowledge that Steelville Telephone Exchange has established operating procedures that are to ensure compliance with the Customer Proprietary Network Information rules set forth in 47 C.F.R.§§ 64.2001-2011.

Steelville Telephone Exchange
STATEMENT OF COMPLIANCE WITH CPNI
47 U.S.C. §222, and 47 C.F.R. § 64.2001- 64.2011
EB Docket No. 06-36

Steelville Telephone Exchange (Steelville) has established operating procedures that ensure compliance with the Federal Communication Commission regulations regarding the protection of consumer proprietary network information (CPNI).

- Steelville has implemented internal procedures to educate and train employees about CPNI and the disclosure of CPNI. Steelville has established disciplinary procedures for any employee that wrongfully discloses CPNI.
- Steelville does not use CPNI without customer notification as set forth by the FCC in 47 U.S.C. §222, and 47 C.F.R. § 64.2001- 64.2011. Steelville provides either an opt-in notice or an opt-out notice when appropriate and maintains the customers choice. Therefore, the customers approval status can be determined prior to use of CPNI.
- Steelville maintains records of their own and their affiliates' sales and marketing campaigns that use their customers' CPNI. Also, Steelville does not currently allow access to third parties for marketing purposes but will obtain Op in approval from customers for which it may allow third party access. Steelville will maintain records anytime third parties are allowed access to CPNI. Records of their own marketing, thier affiliate's marketing or any third party relase, include a description of each campaign, the specific CPNI that was used, and what products and services were offered. These records are retained for a period of at least one year.
- Steelville requires sales personnel to obtain supervisory approval of all outbound marketing requests for customer approval and maintains records of compliance for at least one year.
- Steelville will provide written notice within five business days to the FCC any instance where the opt-out methods do not work properly, to such a degree that the customers inability to opt-out is more than an anomaly.

Steelville did not experience any apparent attempts by data brokers to obtain CPNI and therefore did not take any action against data brokers during the calender year ended December 31, 2007.

Steelville did not receive any apparent customer complaints concerning the unauthorized release of CPNI for the calender year ended December 31, 2007.
